SimFest 2013

Real Practice, Real Environments, Live Action.

SimFest 2013

Saturday, June 1

stlukesonline.org

Experience Simulation to the Fullest:

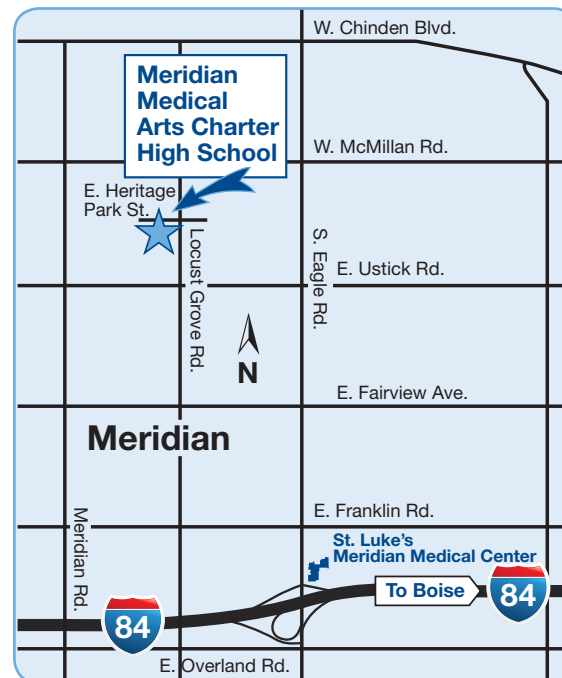

Real Practice, Real Environments, Live Action.

SimFest is the largest hands-on training opportunity for EMS providers in Idaho, and it only happens once a year. This unique learning adventure provides learners an opportunity to practice the delivery of patient care in an immersive environment. SimFest is designed for all levels of pre-hospital care providers, from first responders to advanced life support care providers.

The interactive learning environment will be the most challenging we have offered yet. Participants will experience learning and gain insight into solutions for managing multi-victim, multi-agency responses to a real and challenging patient care situation. Come to SimFest well rested. You will be spending the day practicing “running calls”. Bring your stethoscopes, scissors, and pocket guides and be prepared to Get REAL!

To help offset the expense of those traveling over 75 miles, one way, the Idaho EMS Bureau has offered a limited amount of funds for travel and/or lodging. Please contact Marc Essary at essarym@slhs.org for more details.

Location

Meridian Medical Arts Charter High School
1789 E. Heritage Park Lane, Meridian, Idaho

Schedule

Saturday, June 1, 2013

8 a.m.Registration
